

# **Algo Trading, Custom Bots & TradingView, MT4/MT5 Automation**

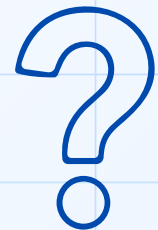

Automate Smarter. Trade  
Better.

# Who We Are

Logirev is a custom algorithmic trading solutions company focused on empowering retail traders through automation, scalability, and precision.

# What We Do

We help retail traders, trading communities, and brokers design, build, and deploy custom algorithmic trading solutions tailored to their unique trading styles and goals.

TradingView

MT4 / MT5

Forex Markets

Indian Markets

Multiple broker integrations • Seamless execution • Custom solutions

# Our Core Services

## → Custom Trading Bots

Transform your manual strategy into a fully automated trading bot with precise execution and risk controls

## → Custom Indicators & Strategies

Proprietary indicators and strategy logic built to match your exact trading rules

## → Trading Automation

Automate entries, exits, risk management, alerts, and position handling across supported platforms

## → Custom Trading Terminals

Personalized dashboards to monitor, manage, and scale multiple strategies efficiently

# Additional Offerings

## → **Broker-Focused Algo Enablement**

We work closely with brokers to power algo trading for their clients—prioritizing broker stability, compliance, and scalability.

- ✓ Stable & compliant infrastructure
- ✓ Scalable solutions for growth
- ✓ Seamless platform integration

# Who We Enable

## → Retail Traders

Individual traders looking to automate their strategies

## → Professional Traders & Educators

Trading professionals and educators scaling their methods

## → Trading Communities

Groups and communities managing multiple strategies

## → Broker Partners

Brokers seeking stable algo trading infrastructure

# Our Mission

To help traders automate confidently, scale efficiently, and trade consistently by providing reliable algorithmic tools built on transparency, logic, and performance.
